import io

Mit io alles.

Importiere io

```python
from io import io
```

Print('', end='') in io:

```python
from io import io

g = 'hu'
io.write('hallo', "hi", g)
```

input() in io:

```python
from io import io

io.input('wie gehts? ')
u = io.input('wie gets? ')
```

if in io:

```python
from io import io

e = 1

def oo():
    print("hallo")

io.io_if(e == 1, oo)
```

while True in io:

```python
from io import io
```

```python
def oz():
    print("hi")

io.whileloop(oz)
```
